Profitable Feeds for Livestock and Poultry. They Lower Your Cost of Production and Make You More Profits

Through constant research and experiments the Ralston Purina Co. can be depended upon to give feeders the newest and best combination of feed ingredients. On the 740 acre experimental farm—chickens, hogs and cows determine which formula is most economical.

A Word to Gardeners and Farmers

Our stock is selected with the greatest possible care, both to trueness of variety and germination test, and while in common with other seedmen, we cannot guarantee the resulting crop, our customers may rest assured that we will exert every effort to get the most pure and best seeds obtainable for our stock. Our nearness to you makes both for the personal desire to please customers whom we know and often meet, and convenience to you in ordering and quick delivery. We maintain for the entire San Juan Basin a retail service where a welcome awaits you. We invite you to our store whether you buy or not. Perhaps we can offer some profitable suggestions in going over your gardening or farming problems.

LAWN SEED—

To secure best results use one pound of lawn seed to each 200 square feet of well prepared seedbed.

HIGHLAND-BRAND LAWN GRASS MIX.

White Dutch & Kentucky Blue.

NITRAGIN

NITRAGIN—Inoculant for Legumes.

We encourage the inoculation of all legume seeds whether planted on old or new fields. It costs but a few cents per acre to convert legume seeds into fertilizer plants and its risky to depend on natural inoculation.

(A-B) COMBINATION—Alfalfa, White & Yellow Sweet Clover, Hubam, Red, White Dutch, Alsike and Ladino.

1 bu. size ea.----- .50 2 bu. size ea.----- .90

ARASAN COATED LEGUME & GRASS SEEDS NOW AVAILABLE

Thicker stands, stronger growing plants and uniform stands across the field are the benefits from treatment of grass and legume seed with Du Ponts ARASAN. ARASAN applied with a Calkins Slurry Treater helps assure a good "catch" because it protects the tiny seeds against rot and seedling blight. We will treat with ARASAN for only 2 cents per lb., \$2.00 per hundred. Order your treated Grass & Legume seeds early to avoid delay at planting time.

PASTURE MIXTURES

HIGHLAND PASTURE MIXTURE

An excellent mixture for permanent pastures on good fertile, well drained soil. A balanced blend of grasses and legumes that gives top yields. Formulated in cooperation with the Extension Service and the Soil Conservation Service especially for the San Juan Basin.

Brome Grass, smooth -----	32 lbs.
Orchard Grass -----	24 lbs.
Meadow Fescue -----	24 lbs.
Ladino Clover -----	5 lbs.
Alsike Clover -----	5 lbs.
Red Clover -----	5 lbs.
Total (enough for 5 acres) -----	95 lbs.
Under 10 lbs. 60c; 10 lbs. to 95 lbs. -----	.49
Per 95 lb. bag -----	45.00

MORTON'S PASTURE MIXTURE

A good permanent pasture mixture providing grasses for top yield over a long grazing season. The legume portion consisting of Yellow Blossom Clover must be replaced every two years.

Brome Grass, smooth	32 lbs.
Orchard Grass	24 lbs.
Meadow Fescue	24 lbs.
Timothy	10 lbs.
Yellow Blossom Clover	10 lbs.
Total (enough for 5 acres)	100 lbs.
Under 10 lbs. 45c; 10 lbs. to 100 lbs.	.34
Per 100 lbs. bag	33.00

MIXTURE FOR WETLAND PASTURES

Where the soil is poorly drained or subject to seep, this permanent mixture will give high forage yields of good quality.

Brome Grass	65 lbs.
Strawberry Clover	15 lbs.
Alsike Clover	20 lbs.
Total (enough for 8 acres)	100 lbs.
Under 10 lbs. 95c; 10 lbs. to 99 lbs.	.83
Per 100 lb. bag	82.00

SMALL GRAINS

All wheat barley and oats are **cleaned** and **treated** with Ceresan Slurry. For untreated grain deduct 15c per cwt. (Special order only).

Prices quoted are f.o.b. Durango. Add 20c per hundred for f.o.b. Cortez price.

Seed Disinfectants and Fungicides

COPPER CARBONATE, 50%, 5 lb.-----\$ 2.35

Copper Carbonate kills smut spores, insures your crop by treating your seed for smut.

DU PONT SEED DISINFECTANTS—

Most growers are familiar with the destruction caused by smuts of small grains, roct-rots of corn, scab of potatoes, damping-off of all small seedlings and many similar diseases, which are surface seedborne. DuPont Seed Disinfectants pay large profits by destroying disease organisms before they can do damage by preventing seed rotting in cold, wet soils, by producing better stands of more vigorous plants, by increasing yields, and by improving crop quality.

ARASAN, for Grasses, Legumes, Seed Corn, and many vegetable seeds.

CONTROL—

—WEEDS

—BUGS

**AIRPLANE APPLICATION OF INSECTICIDES
AND WEED KILLERS**

Our custom airplane application has been proven a quick and effective means of weed control in cereal crops and the only thorough applicator of insecticides.

The cost is low and the work is satisfactory and effective. Especially valuable this year will be savings of scarce man hours as required by other methods. If you have a weed problem or if weevil or grasshoppers become a menace you should contact us for immediate control.

HINMAN LOW-VACUUM MILKERS

**Fast Clean Milking
With Less Stripping.**

For more than 7 years, Hinman has pioneered the idea of low-vacuum milking. That principle has now been thoroughly established but it took years of research and thousands of tests to find the exact degree at which a cow milks best. Hinman found it—at 10 inches. Vacuum at 10 inches safely empties the udder faster. Besides, it makes the cow comfortable, and enlists her cooperation. Its mild action helps keep teats and udder in good condition—that's why so many Grand Champion cows for years have been milked exclusively with Hinman Milkers. New Hinman Air Flow Vacuum Pump with electric motor is a small, powerful, economical unit.

Iowa Cream Separators (Electric)

500 to 1,000 lb. Capacity

BABY CHIX

Order Everybody wants good chicks this year
—so see us today to place your order.
Early Our chicks are strong and vigorous . . .
bred to live, lay and pay.
They are Bred for High Production.
Come from Bloodtested Flocks.

Parent flocks get a special breeder ration. What a hen eats has a lot to do with vigor and livability of her chicks. Parent flocks are fed Purina Layena or Purina Breeder Lay Chow and grain. The rations pack the egg with nutrients needed during the 21 days in the shell plus a reserve to get the chick started with a bang.

DAY-OLD CHICKS—F. O. B. DURANGO.

HY-LINES—

U. S. Approved Pullorum Passed. The amazing Hybrid Chickens with a proven record of out-laying standard breeds by an extra Case of Eggs Per Month Per 100 Layers in actual on-the-farm tests. Hybrid vigor gives Hy-Lines high livability . . . early maturity . . . and the ability to lay 12 to 14 months in all kinds of weather without a let-up. Hy-Line quantity is limited . . . place orders as far in advance as possible.
